Unified Platform Roadmap – Business Pitch

Our platform integrates **VPN Services, Domain & Hosting, Cybersecurity Education, E-book Marketplace, and Distributed Research (BOINC)** into one ecosystem. With billing powered by **Paystack (local & crypto)**, we provide a scalable, secure, and innovative solution for individuals, schools, and businesses.
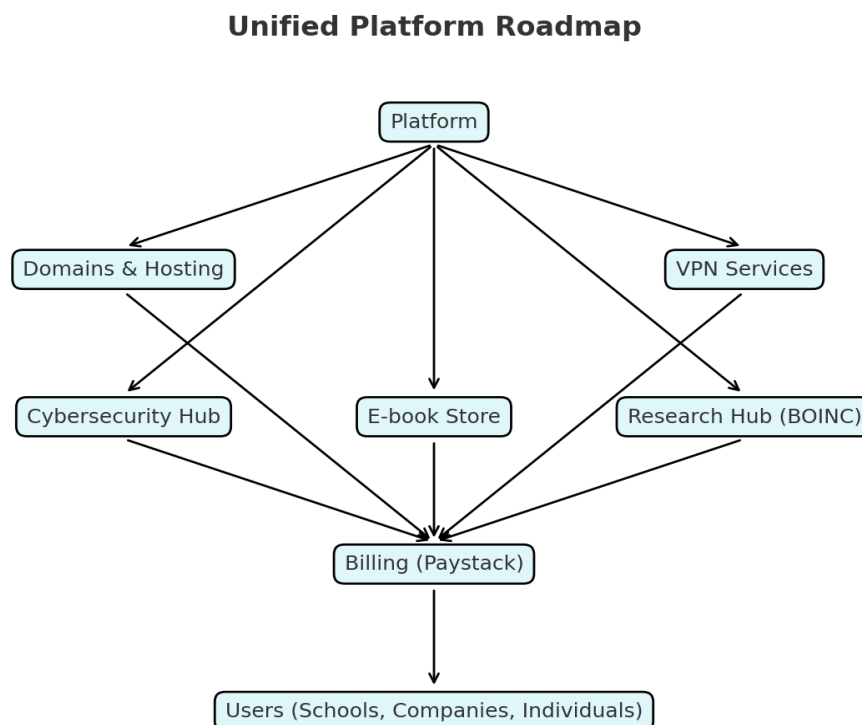

Core Services:
• Domain & Hosting Marketplace (ICANN integrated)
• VPN & Proxy Services (WireGuard, Shadowsocks, Cloak)
• Cybersecurity Hub (Training, Courses, Certifications)
• E-book Store (Digital knowledge sales & distribution)
• Research Hub (BOINC distributed computing)

Target Clients:
• Schools (cybersecurity teaching, research programs)
• Companies (secure hosting, VPN, CSR via BOINC)
• Individuals (privacy tools, hosting, learning)

Unified Platform Roadmap

Monetization:
1. Hosting & Domains → recurring revenue
2. VPN Subscriptions → monthly/yearly plans
3. E-books & Courses → one-time + subscription
4. Research CSR → partnerships with schools & companies

Vision: A one-stop ecosystem for Privacy, Education, and Innovation.
